Press Release

Netweb Technologies delivers a landmark year, with Revenue from Operations reaching ₹21,836 million, reflecting a year-on-year growth of 90.0% and PAT at ₹2,058 million, up 80.9% YoY

Delhi - NCR, 02nd May 2026: Netweb Technologies India Limited (Netweb), India's leading Indian origin, owned and controlled OEM in the space of High-End Computing Solutions (HCS), announced its Q4 FY26 results today. The Board of Directors of Netweb at its meeting held on 02nd May 2026, took on record the audited Financial Results for the Financial Year 2025-26. Netweb offers a full stack of products and solutions to various end user industries such as IT, ITES, BFSI, National Data Centers and Govt. entities such as Defence, Education and R&D Institutions.

Key Financial Highlights:

Operating Income stood at ₹ 7,737.0 Mn for Q4 FY26, with YoY growth of 86.6%

Operating EBITDA stood at ₹ 965.7 Mn, an increase of 63.0% over Q4 FY25, Operating EBITDA margin stood at 12.5%

Adjusted Operating EBITDA[#] stood at ₹ 1,018.1 Mn, an increase of 71.8% over Q4 FY25, Adjusted Operating EBITDA margin stood at 13.2%

PAT stood at ₹ 705.9 Mn, an increase of 65.7% over Q4 FY25, PAT Margin was at 9.0%

Net Debt was nil, with net free cash of ₹ 833.0 Mn as at 31st March'26

Key Business Highlights:

Order Book: ₹ 4,724 Mn as at 31st Mar'26

Segmental Growth: Income from AI Systems grew by 459.6% YoY during FY26, its contribution to the company's operating revenue increased to 43.4% during the same period

Profit & Loss Summary:

₹ Millions

Particulars	Q4 FY26	Q4 FY25	YoY(%)	Q3 FY26	QoQ(%)	FY26	FY25	YoY(%)
Total Income	7,839.4	4,171.5	87.9%	8,115.7	(3.4%)	22,024.1	11,584.1	90.1%
Operating Income	7,737.0	4,146.5	86.6%	8,049.3	(3.9%)	21,835.6	11,490.2	90.0%
Adjusted Op EBITDA ^{1,2,#}	1,018.1	592.6	71.8%	979.5	4.0%	2,900.8	1,590.4	82.4%
Adjusted Op EBITDA Margin (%)	13.2%	14.3%	(113 bps)	12.2%	99 bps	13.3%	13.8%	(56 bps)
Op EBITDA ^{1,2}	965.7	592.6	63.0%	979.5	(1.4%)	2,848.4	1,590.4	79.1%
Op EBITDA Margin (%)	12.5%	14.3%	(181 bps)	12.2%	(31 bps)	13.0%	13.8%	(80 bps)
PAT ²	705.9	426.1	65.7%	733.1	(3.7%)	2,058.2	1,137.5	80.9%
PAT Margin (%) ²	9.0%	10.2%	(121 bps)	9.0%	3 bps	9.3%	9.8%	(47 bps)
Diluted EPS (₹)* ²	12.43	7.50	65.7%	12.94	(3.9%)	36.30	20.11	80.5%

#During the quarter and for the full year, mark-to-market (MTM) losses arose on certain payables, against which corresponding hedging gains were recorded. Under applicable accounting standards, MTM losses are required to be recognised within expenses, whereas the related hedging gains are classified under other income. To present a more accurate picture of the Company's operating profit, hedging gains have been added back to EBITDA to the extent they offset MTM losses on the same underlying payables, amounting to ₹52.4 Mn.

*Diluted EPS non-annualized;

1: Op EBITDA excludes other income

2: Previous periods numbers have been changed in accordance with change in accounting policy for valuation of Raw Materials, Finished Goods and Work in Progress from First in First Out (FIFO) to moving weighted average cost method. The impact is not material.

Commenting on the results, Mr. Sanjay Lodha, Chairman and Managing Director, Netweb Technologies said:

Netweb Technologies delivered a landmark year, with Revenue from Operations reaching ₹21,836 million in FY26, reflecting a year-on-year growth of 90.0%. This record annual performance underscores the strength of our business model and the accelerating demand for high-end computing systems in India.

For Q4 FY26, Revenue from Operations stood at ₹7,737 million, growing 86.6% year-on-year, demonstrating sustained execution momentum as we closed the year on a high note.

Operating EBITDA for Q4 FY26 and Full Year FY26 stood at ₹966 million and ₹2,848 million, respectively. Adjusted Operating EBITDA for Q4 FY26 was ₹1,018 million, up 71.8% YoY, with a margin of 13.2%. PAT for the quarter stood at ₹706 million, representing 65.7% YoY growth with a PAT margin of 9.0%. For the full year, Adjusted Operating EBITDA stood at ₹2,901 million, up 82.4% YoY, with a margin of 13.3%, while PAT stood at ₹2,058 million, up 80.9% YoY, with a PAT margin of 9.3%. These results reflect not just top-line momentum, but disciplined margin sustained across our business.

The defining highlight of FY26 has been the performance of our AI Systems segment, which grew 459.6% year-on-year. This growth was the result of years of focused, in-house R&D, enabling us to design and manufacture some of the world's most powerful, latest-generation AI systems, combined with disciplined planning and execution of large, strategically significant national-scale orders. AI Systems contributed 43.4% of our total operating revenue in FY26, a transformational shift in our revenue mix that firmly positions Netweb at the centre of India's AI infrastructure build-out. Our other two core segments, HPC and Private Cloud, continue to exhibit robust demand, reinforcing the breadth and resilience of our technology portfolio.

This performance is a direct reflection of Netweb's unwavering commitment to the in-house design and manufacture of next-generation high-end computing systems. This fully aligns with the Global Phenomena of 'Sovereign Compute Infra Needs', which is very well addressed by Netweb's and Country's Make in India vision. We take immense pride in creating significant impact in strengthening India's emergence as a credible global hub for high-technology manufacturing, which will benefit the nation for decades to come.

Beyond our own performance, we believe India stands at the threshold of a generational opportunity in artificial intelligence. With the world's largest pool of digital users, a fast-maturing data ecosystem, a major boost to indigenous foundational models, and decisive policy momentum through the IndiaAI Mission supported by Make in India, the country is poised to emerge as one of the most prominent AI economies of the world. Central to this vision is the Government's clear focus on sovereign AI infrastructure, ensuring that the compute, data, and models powering India's digital future are built, owned, and operated within the country. The build-out of indigenous AI compute is no longer aspirational; it is a strategic national imperative tied directly to economic competitiveness, data security, and technological self-reliance.

As India's only full-stack domestic provider of high-end computing systems, Netweb is uniquely positioned to power this transition. Our strategy remains firmly anchored on our three growth pillars: HPC, Private Cloud, and AI Systems, supported by our established technology leadership in the High-End Computing Systems (HCS) space and a large order pipeline. We see a long runway of growth ahead, and we remain committed to investing in R&D, manufacturing depth, and talent to ensure that India's AI ambitions are built on strong foundations, and that Netweb continues to create durable, long-term value for all our stakeholders.

About Netweb Technologies

Netweb is India's leading high-end computing solutions (HCS) provider, with fully integrated design and manufacturing capabilities. Netweb's HCS offering comprises HPC, Private cloud and HCI, AI systems and enterprise workstations, High performance storage (HPS) and Data Centre Servers. Founded in 1999, and headed by Mr. Sanjay Lodha, Chairman and Managing Director, Netweb has helped many companies globally by following a customer centric approach. Netweb has manufacturing facility in Delhi - NCR and 18 offices across India. Netweb got listed at NSE and BSE in July 2023.
